## EDUCATION

|  |               |
|--|---------------|
| <b>B.Sc Honours Computer Science</b><br><i>York University, Lassonde School of Engineering</i> | Expected 2027 |
|--|---------------|

## WORK EXPERIENCE

|                              |                     |
|------------------------------|---------------------|
| <b>Developer / QA Tester</b> | May 2025 - Dec 2025 |
|------------------------------|---------------------|

*Government Of Ontario, MPBSDP | Toronto, ON*

- Collaborated with developers, QA testers, and business analysts to digitize government forms and develop an accessible online tool for Ontarians.
- Performed User Acceptance Testing (UAT) to validate that features meet user stories and design requirements.
- Used DevOps to track bugs and accessibility issues, ensuring clear traceability and progress tracking.
- Provided feedback on UI/UX and functional requirements to help guide development toward a user-friendly and accessible experience.

|                     |                     |
|---------------------|---------------------|
| <b>Web Designer</b> | May 2025 - Sep 2025 |
|---------------------|---------------------|

*Run The Flex | Toronto, ON*

- Designed and built a website for a new kids program within the company using a web design platform and custom components to enhance functionality and engagement.
- Created Figma prototypes to guide the design process and ensure a playful, user-friendly experience that aligned with the company's brand and goals.
- Collaborated with team members to refine content and visuals, ensuring consistency and clear communication of the new program's offerings.

|                                   |                     |
|-----------------------------------|---------------------|
| <b>Junior Project Coordinator</b> | May 2024 - Dec 2024 |
|-----------------------------------|---------------------|

*Government Of Ontario, Treasury Board Secretariat | Toronto, ON*

- Supported Senior Project Managers and Coordinators in planning, executing, and monitoring long-term projects, ensuring alignment with goals and user stories in Agile-based sprints.
- Captured detailed meeting minutes for sprint planning, retrospectives, and other key Agile ceremonies to keep teams aligned on decisions, blockers, and action items.
- Updated organization charts, project timelines, product backlog, project risks, and presentation materials, ensuring teams had the latest information for decision-making.

## ACADEMIC INVOLVEMENT

|                 |                    |
|-----------------|--------------------|
| <b>Co-Chair</b> | Sep 2023 - Present |
|-----------------|--------------------|

*ElleHacks | York University*

- Currently leading the planning and execution of ElleHacks alongside a team of three other Co-Chairs for Canada's largest hackathon for women and gender diverse students.
- Oversaw logistics, sponsorship, marketing, budgeting, IT, and community engagement teams
- Coordinated with university partners, sponsors, and volunteers to align goals and maintain timelines.
